📁 Portfolio

Career Objective

Full-Stack Developer with hands-on experience in React.js, Node.js, and Flask — building scalable, high-performance web applications and agentic AI systems powered by LLMs.

EDUCATION

COER University

B.Tech in Computer Science – AI & ML Specialization

CGPA: 8.37

Roorkee, Uttarakhand

2023 – Present

PROJECTS

Job Application Agent 🗒️ | Python, Flask SSE, Groq, RapidAPI, Multithreading Mar 2026 – May 2026

- Built a multi-agent pipeline with chain-of-thought resume parsing, tri-source real-time job search (LinkedIn Jobs API + JSearch + Adzuna) via multithreading, and hybrid match scoring combining TF-IDF, skill overlap, and LLaMA 3 (Groq).
- Implemented smart job filtering with platform priority ranking (LinkedIn → Naukri → Indeed) and automated blocking of low-quality aggregators — ensuring only verified, active listings with direct apply links reach the user.
- Delivered non-blocking live progress updates via Flask SSE and background threading; built a responsive frontend with AI-powered autocomplete, experience-level filtering, and per-job personalized email generation.

AI-Powered Study Planner 🗒️ | Python, Flask, Gemini API, HTML/CSS Nov 2025 – Dec 2025

- Designed and developed an AI-powered study planner that generates personalized weekly schedules by analyzing subjects, deadlines, and priority levels via Gemini API.
- Implemented dynamic schedule adjustments and export functionality to improve planning efficiency and user experience.

Diet Recommendation System 🗒️ | Python, Flask, Gemini API, HTML/CSS Jan 2025 – Feb 2025

- Generates personalized daily diet and workout plans from user inputs (age, weight, goals, dietary preferences) via Gemini API.
- Responsive Flask interface with real-time inference and input validation; works seamlessly across devices.

SKILLS

Frontend: React.js, HTML5, CSS3, JavaScript, Bootstrap, Responsive Design

Backend: Node.js, Flask, REST APIs

Programming Languages: Python, JavaScript, C++

AI/ML: LLMs, Prompt Engineering, Generative AI

Libraries: Pandas, OpenCV

Developer Tools: Git, GitHub, Visual Studio Code

CERTIFICATIONS

AI Fluency: Framework & Foundations, Anthropic Education

5-Day AI Agents Intensive Course, Google & Kaggle

Oracle Cloud Infrastructure 2025 – Generative AI Professional, Oracle

Career Essentials in Generative AI, Microsoft & LinkedIn Learning
